§ 101-5.203-6 Pooling of equipment and personnel.

(a) In establishing centralized reproduction facilities in Federal buildings or complexes, GSA's regional office will make arrangements with participating agencies for the transfer of duplicating and related equipment for the centralized plant. Equipment for which

there is no foreseeable need in the centralized plant will not be transferred to the plant but will be disposed of or transferred by the owning agency out of the centralized plant. Copy processing machines, as provided in paragraph (b) of this section, as well as reproduction, addressing, and automatic-copy processing equipment used in bona fide systems applications may be retained by mutual agreement with user agencies.

(b) All copy-processing machines having a maximum speed of 25 copies a minute or less are exempted from transfer to the centralized plant, subject to the following conditions:

(1) No automatic document feeders, sorting mechanisms, or similar devices that encourage the use of the copier as a duplicating machine will be permitted, except in certified bona fide systems applications approved in advance by GSA.

(2) All purchase orders for new copying equipment or for continuation of existing equipment shall be submitted to the centralized facility manager for approval prior to release to the vendor.

(3) Exempted copiers, other than in bona fide systems applications provided in this § 101-5.203-6, are to be used for making not more than 20 copies of any one original. Requirements for more than 20 copies shall be submitted to the centralized facility for reproduction.

(4) The centralized facility manager shall periodically inspect agency copiers to ensure compliance with the terms of the exemption provisions. Following such inspections, action shall be taken first at the local level, then, if necessary, at the headquarters level, to promptly remove any unauthorized equipment, attachments, and devices not in consonance with these provisions.

(c) Personnel devoting over 50 percent of time to the duplicating activities of the affected agency will be identified for transfer to the operating agency upon establishment of a centralized plant, in accordance with the Office of Personnel Management regulations relating to the transfer of functions. Agencies will transfer personnel ceiling to the operating agency for employees so transferred. In the event of

Federal Property Management Regulations

§ 101-5.205-2

later disestablishment of the centralized facility or substantial reduction in operations thereof, personnel ceiling will be returned to the agencies from which originally received.

(d) Exceptions to pooling of equipment to meet the individual agency programmatic need, special physical security needs, confidentiality requirements, and/or certain quality standards will be made available to occupant agencies when use of such equipment is justified. Each agency must provide justification for approval of the GSA regional printing and distribution activity before acquiring space and/or electrical service from the building's manager. Otherwise, as agreed by the user agencies, GSA will not make available space for duplicating equipment, or provide other support services for such equipment in Federal buildings where use of that equipment would duplicate the services provided by the centralized services plant.
